

Procedures for Research Within Individual Probation Areas

To conduct research within a specific Probation Area researchers will need to get in contact with the relevant individual within that area.

Within Yorkshire and Humberside Region, the only area with a research team is West Yorkshire Probation Trust. If you wish to conduct research with staff or offenders within West Yorkshire Probation or need access to their data, you will need to fill in a Research Request form. You can request a form [here](#).

If you wish to conduct research within either South Yorkshire, North Yorkshire or Humberside you will need to write to the Chief Officer of the relevant area.
